Take the Papers. BY N. P. WILLIS.

Why don't you take the papers? They're the light of my delight; Except about election time, And then I read for spite,

Subscribe! you cannot lose a cent: Why should you be afraid? For cash thus paid is money lent - At interest four-fold paid. Go, then, and take the papers.

And pay to-day, nor pay delay, And my word for it is inferred, You'll live until you're gray. An old neighbor of mine. While dying of a cough,

Desired to hear the latest news While he was going off. I took the paper and I read Of some new pills in force; He bought a box-and is he dead?

No-hearty as a horse.

I knew two men as much alike As e'er you saw two stumps; And no phrenologist could find A difference in their bumps. One takes the paper, and his life

Is happier than a king's; His children all can read and write, And talk of men and things. The other took no paper, and,

While strolling through the wood, A tree fell down and broke his crown And killed him -- "very good."

At home like neighbor Jim, I'll bet a cent that accident Would not have happened him. Why don't you take the the papers? Nor from the printer sneak Because you borrow from his boy

Had he been reading of the news,

A paper every week. For he who takes the paper, And pays his bills when due, Can live in peace with God and man, And with the printer too.
